Relevant Experience

Software Engineer, *Velaris Technologies Company* 06/2026 – Present
Remote
Implemented new web site including back-end database storage system and dynamic web pages and mobile apps. Developed and conducted usability tests, implementing enhancements to improve user experience.

Wordpress Developer, *Contract* 04/2025 – 07/2026
Remote
Built and deployed a reponsive wordpress application using Elementor and Guteng Editor. Improved Optimization by 80%..

Software Engineering Intern, *GMT Software Institute* 03/2025 – 09/2025
Abuja, NIgeria
Built and deployed responsive web applications using React, Node.js, Express, and MongoDB.
Collaborated with a team of developers to design and implement RESTful APIs that improved backend efficiency by 25%.
Integrated authentication and authorization systems with JWT for secure user access.
Optimized front-end performance, reducing load times by 30%.
Participated in daily stand-ups and sprint reviews in an Agile environment.

Education

Software Engineering, *MIVA OPEN UNIVERSITY* 05/2026 – Present
Abuja, Nigeria
GPA: 4.5/5.0 Relevant Coursework: Systems Programming, Data Structures and Algorithms, Artificial Intelligence, Introduction to Probability, Multivariable Calculus
Commit 10 hours per week to the Miva AI and Robotic Lab Fellowship Program.

Projects

Ayomama, *Developed responsive and reusable user interface components using React Native and Expo.* 11/2025 – 03/2026
Built intuitive user flows for onboarding, health check-ins, appointment scheduling, and profile management.
Integrated REST APIs to display personalized health information and user data.
Collaborated with designers to translate Figma designs into polished, accessible, and consistent mobile interfaces.
Improved application performance by optimizing component rendering and state management. Worked closely with backend engineers to define API requirements and ensure seamless frontend integration.
Participated in code reviews, debugging, testing, and iterative feature development within an Agile workflow

Ecosmart Ai, *NEXT.JS, TYPESCRIPT, TAILWINDCSS, NODE.JS, EXPRESS.JS, MONGODB* 04/2026
Developed the user-facing interface and frontend infrastructure for an AI-driven sustainability and recycling management platform using Next.js.
Built responsive dashboards utilizing Next.js server-side rendering and TypeScript to visualize operational data, integrating real-time API flows and designing modular UI components for enhanced user engagement.
Implemented secure token-based authentication workflows, role-based access control, and optimized state management layers to handle complex enterprise datasets.

SpatialCare, *Next.js, Typescript, Python*
Built a real-time facility search across all 36 states + FCT, verified PHC data.
AI chat that auto-detects and replies in pidgin, Hausa, Yoruba, or Igbo and gives reality-specific answers based on your actual state, LGA and ward not generic responses.

Leadership

MIVA AI/ROBOTIC LAB FELLOW, *Fellow* 08/2026 – Present
Organized outreach campaign, resulting in a 20% increase in alumni mentors in the matching database. Coordinated tech networking night for 75 students. Abuja, Nigeria

MIVA AI HACKATHON, *Technical Team Lead* 07/2026 – 07/2026
Co-ordinated a team of developers from the frontend to backend to build a healthcare system. Abuja, Nigeria

Skills

Soft skills
Problem Solving, Teamwork, Creativity, Decision-making, Communication, Critical-thinking, Adaptability, Leadership, Emotional intelligence, Work ethic

Technical skills
Frontend: React, Next.js, React Native, Expo, Tailwind CSS, shadcn/ui, Radix UI, Bootstrap, Leaflet
Backend: Node.js, Express.js, REST APIs, Socket.IO, ASP.NET Core, Swagger/OpenAPI, JWT Authentication
Data / Tools: PostgreSQL, SQL, MongoDB, SQLite, Firebase, Cloudinary, Git, GitHub, Axios, React Query, Zustand, Vercel,
Azure, Render, Expo EAS
